

the aphasia handbook

'The Aphasia Handbook is a must-have not only for those who have aphasia but for all of those – friends, relatives, and health professionals – who care for aphasia patients. It provides, in clear and accessible language, the sort of rich information about aphasia and its management that can make a real difference in people's lives. The National Aphasia Association, Dr Martha Taylor Sarno and Joan Peters should be congratulated on bringing out the American version of this indispensable volume.'

Antonio R Damasio MD, Van Allen Professor of Neurology, University of Iowa College of Medicine

'The Aphasia Handbook is an essential resource for people with aphasia and their families. It is beautifully clear, well-organized, and sensitively written – a most valuable guidebook to living creatively with aphasia.'

Oliver Sacks MD, author of *The Man Who Mistook His Wife For A Hat* and *Awakenings*

'This clear comprehensive handbook is designed to help, support and guide people with aphasia and their caregivers. Stroke survivors with aphasia will find answers to everyday questions and gain a new understanding of life with this often frustrating and misunderstood condition.'

National Stroke Association

*The Aphasia Handbook was edited and adapted by Martha Taylor Sarno MA MD (hon) and Joan F Peters Esq from *The Stroke and Aphasia Handbook*, created in the UK by Susie Parr, Carole Pound, Sally Byng and Becky Moss of Connect, the communication disability network, in conjunction with Bridget Long (information designer) and Caroline Firenza (illustrator)*
